VI. New Business

Ankle monitoring is made available to pre-trial, nonviolent, misdemeanor offenders. The offender will have the option to pay for the system and be released so they can be at home and work. Mr. Johnson informed the committee that the state used to pay for the program but now will only pay a percentage of the cost. The county will have to pay or pass the cost on to the offender. This is a private for-profit company. Attorney Hardin wanted the committee to understand that this is geared to the indigent jail population. The ones who fill out the application and are deemed unable to pay for lawyers or the ankle monitor. The company was supposed to have representatives at the meeting to explain the system and cost to the committee, but, they were not in attendance. Mike Hill made a motion to reject this cost for the county, Dr. Robert Acuff second. The motion was unanimously approved. This will be on the Budget agenda this month.

VII. Announcement

Mr. Johnson suggest that the committee look at the new patches that are being worn by the Sheriffs Department. They really look nice.
